

Sandy S. Kleckner
Professional Data

Our company philosophy is "Do one thing and do it right". Our company's strong belief in that conception is one reason we stay so successful in such a competitive market.

Raystown Realty has been a top seller in Huntingdon County and we are FULL TIME agents that are dedicated to are clients and handle many transactions per year. We are committed to the use of new technology via e-mail, internet and computerized multiple listing to help us help you.

Being raised in the Huntingdon county area allows me to assist my customers and clients in local and county knowledge and know the people that I deal with and provide them with the confidence they look for when buying or selling real estate. I appreciate the closeness of our community and desire to serve our residents and those new to our area in the best and most professional way.

My education and experience are as follows: Attended Penn State University and obtained real estate licensure in February of 1997. Prior to that, I had worked as a real estate office manager for 5 years, involved in the daily routine of real estate transactions. With my years of licensure and office experience, I am able to serve my clients in a complete manner.

I have served in the capacity of Secretary, Treasurer, Vice President and President for the Huntingdon County Board of Realtors and am currently a Director for the organization. I also served on the Education and Membership committees for the Board and chaired the Toys for Tots program for 3 years that was sponsored by our Board. I am Past President of our local Soroptimist Club and currently serve as a Director, and enjoy doing community service projects via the club. I am active in my church and participate in the many activities that our church provides. I am also involved in helping organizations around the county in fundraising and enjoy doing crafts, taking walks, and interior decorating.

As a business person, I know that our clients and customers come first and top notch service is a must. My goal is to serve you in the capacity in which you deserve and should also expect.

Respectfully,
Sandy Kleckner
